HOW TO SET UP YOUR JUGS OUTDOOR FRAME
1. Check contents to make sure you have all needed parts.
   Tubing:
   • Six - 1 1/2’ x 15’ - long galvanized tubing
   • Six - 2 1/2’ x 3’ - long galvanized tubing (ground sleeves)
   • Two - 1 1/2’ x 12’ - long galvanized tubing
   • One - 1 1/2’ x 18’ - long galvanized tubing

   Hanging-Loop Assemblies:
   • Nine - hanging-loop assemblies (for middle frame sections)
   • Six - short hanging-loop assemblies

2. Dig holes and secure the 3’ sleeves into the ground. Use concrete to secure your 3’ sleeves into the ground.

3. Middle Sections: Insert a short hanging-loop assembly into each of the middle pre-drilled crossbar holes and secure all with cable clamps.
   • You should not stake the net down or put any type of weight on the net to hold it down. This would cause the net to prematurely wear out because the net would not be allowed to “give” and absorb the batted balls.

4. End Sections: Insert a short hanging-loop assembly into each of the end pre-drilled crossbar holes and secure all with cable clamps.

5. You are now ready to attach your netting to the frame.

   HOW TO ATTACH YOUR HANGING LOOPS TO THE CROSSBARS
   1. Lay your net out under the frame sections. Stretch it out completely from one end to the other.
   2. Pick up the net by the nylon rope and attach it to the middle frame sections with the hanging-loop assemblies.
   3. After hanging the net on the middle frame section, making sure that it does not sag more than 1-2’, pull the ropes towards the end frames to stretch it out. Attach each rope to the end frame sections with the corresponding hanging-loop assemblies. See Figure 1.
   4. Walk completely around the net, pulling and helping the net to stretch into shape. The net will condense inside the box and will need a little help getting back into shape.

   NOTE: We at JUGS recommend hanging your batting cage net with a minimum of 18” of netting on the ground. This will provide you with enough space so that the batted balls will not bounce back and injure anyone.

   NOTE: Drawings are not to scale.
   WARNING: Do not leave your net and frame up during extreme weather conditions (high wind, snow), as non-warranty damage may occur.

   CUSTOM NETTING: FROM FACTORY TO YOU IN LESS THAN 2 WEEKS
   All shapes and sizes now available, including: Batting Cage Nets, Backstops, Trapezoid Backstops, Outfield and Foul Ball Netting.
   There are 3 Ways for you to get more information and FREE estimates on JUGS Custom Netting:
   1. Call JUGS at 1-800-547-6843 and ask for a Net Specialist.
   2. FAX your specifications to a Net Specialist at 503-691-1100.
   3. E-mail your specifications to info@jugssports.com.
